Re: The ICHPER·SD Business Update (PA#15/10): **1)** the 53rd ICHPER·SD Anniversary World Congress & Exposition in 2011; **2)** the 6th ICHPER·SD Asia Regional Congress & Exposition in Taipei, Taiwan; **3)** Presidential Appointment; **4)** IOC's 7th World Conference for Sport, Education & Culture; and **5)** ICHPER·SD Journal of Research acquired 5 ProQuest Indexes.

Greetings to you and your families! We thank you for participating in the progressively sustained mission of ICHPER·SD. As President, it is once again my special privilege to write and provide you the update on the ICHPER·SD current business and activity. I trust that our memo (i.e., 9 pages) dated June 15, 2010 and written jointly with Dr. Adel Elnashar, Secretary General and I has reached you and reviewed it thoroughly. Since then, we have published the English Proceedings of the 53rd ICHPER·SD Anniversary World Congress, and we mailed them to each World Congress registered participant in the middle of July 2010. By now, all ICHPER·SD constituent members should have received the latest publication of the *ICHPER·SD Journal of Research*, Vol. V. No. 1, Spring & Summer 2010.

Please contact ICHPER·SD headquarters if you wish to purchase a copy of the English Proceedings – at a price of US \$70.00 including the mailing cost for members and \$100 for non-ICHPER·SD members. The ICHPER·SD Journal of Research (i.e., the latest or past issue) may also be purchased at a price of US \$15.00 for members and \$25.00 for non-members.

**I. The 53rd ICHPER·SD Anniversary World Congress & Exposition
in Buffalo/Niagara, New York in 2011**

The attached memorandum dated July 24, 2010 was written by the Office of the President and submitted to the interested entity located in Buffalo as the first proposal to initiate a negotiation process for organizing the 53rd ICHPER·SD Anniversary World Congress and Exposition in Buffalo/Niagara, New York in 2011.

As revealed in the memo, it is a huge challenge, a new paradigm and a new direction for ICHPER·SD. I am asking every selected recipient of this memo to thoroughly review and study the attached July 24 memo, faithfully formulate his/her own responsibilities, commit to this project as a part of the whole. Only then, will we be able to pursue this new paradigm and direction. Otherwise, we will have to return to the traditional form of methodology – with no addition of the Pre-World Congress Program to the World Congress & Exposition.

May I therefore request your written feedback on the creation of the Pre-World Congress programs and their assessment, evaluation, with critiques and recommendations by e-mail (djyang@erols.com) to my home office as soon as possible and/or before **August 26, 2010**. Especially, every Vice President and Executive Committee member is asked to be punctual in meeting the designated timeline of ASSP or **August 26, 2010**.

To the Vice Presidents: **1)** Is it possible to organize your region's children/youth for separate boys and girls teams (i.e., football/soccer and basketball under 13 years old age group)? **2)** Can these teams be a national team that shall be sponsored by a representing country? **3)** Or can these teams be of mixed nationality comprised of children from several countries in your region? and **4)** Can the regional leadership (i.e., Vice President, Regional Secretary, Regional Executive Committee and/or BOG members) organize the teams and raise the funds or secure a sponsor (or sponsors) for their participation (i.e., airfare, dormitory fees and miscellaneous expenses) in addition to the basic financial support of US \$12,000 per region from ICHPER·SD headquarters? I will welcome all Vice Presidents' telephone calls for discussing this subject upon setting a time via E-mail. My home office telephone number: (301) 977 – 3527. An ideal time for a conference is between 8:00 p.m. – 11:00 p.m., Monday through Sunday.

We, Dr. Elnashar, Dr. Wright and I, made a 3 days visit (07/28 – 08/01) to Buffalo to present and discuss the contents of the proposal with the interested stakeholders in the region and concluded that these 2 sports, football (soccer) and basketball, would be the best sports at this time, considering all relevant conditions. Thank you.
